

1. In my own words, what is Product Management?

This is the process of managing the life cycle of a product, from the idea to the testing and feedback stage.

2. List 5 stages of Design Thinking

They are :

- Empathize
- Define
- Ideate
- Prototype
- Test

3. Difference between Empathy and Sympathy

Empathy → understanding and *feeling* what someone else is experiencing (putting yourself in their shoes).

Sympathy → feeling *pity or concern* for someone's situation without necessarily sharing their feelings.
